

Rush County Memorial Hospital is seeking a Quality Improvement/Infection Prevention/Risk Management RN. The successful candidate will provide leadership and management while monitoring and improving the quality and appropriateness of patient care while minimizing risk and potential loss, hospital-wide.

Qualifications:

- RN, licensed to practice in KS
- Minimum 2 years professional nursing experience
- Demonstrated leadership and management experience

Responsibilities:

- Plan, organize and direct quality, risk management and infections operations and activities
- Provide information to hospital committees/departments to formulate changes in policies, procedures and/or processes to reduce the spread of infection
- Develop and coordinate infection prevention and control throughout the facility by formulating, establishing and evaluating policies and procedures. Perform annual assessments and establish actions plans.
- Evaluate programs and effect needed changes to improve quality programs and assure compliance with requirements, hospital standards, policies and procedures.
- Assure coordination, standardization and continuity of quality improvement programs.
- Monitor, supervise and evaluate quality performance.
- Identify new opportunities to improve service and reduce costs.
- Maintain established hospital policies/procedures, mission statement and goals while ensuring all staff participate toward goal achievement.

To apply:

- Email cover letter and resume to marbuckle@rcmhosp.com
- Apply online: www.rushcountymemorialhospital.com/jobs.html
